

What satisfied customers think of Kitchens Alive, LLC.

1. Shari Brown of Dallas: “Thank you for your service, above and beyond!”
2. Hal Watson of Denton: “We love our new pull outs! The high quality design and ease of operation combined with superior customer service made this a great experience! We highly recommend this product.”
3. Val Kerns of Coppell: “Excellent quality and construction. I appreciate that the roll- outs were constructed locally!
Island roll-outs: I love the roll-out for my tall items (cutting boards, cookie sheets). I no longer have to move everything around to find my cookie sheets. I just open the door, roll out the drawer and voila, my cookie sheets and cutting boards are at my fingertips. Love it, love it, love it!
Pantry roll-outs: My pantry has never looked so good or been so organized. The pantry roll-outs keep me organized and it is easy to see what is there. No more buying items I already have but were hidden in the depths. Wonderful!
Under sink roll-outs: My cleaning supplies have never been so organized and easily accessible. I love the risers for small items that were always lost and not easily found.
The Service:
Professional and friendly people from beginning to end. They measured twice and constructed once! They didn't rush the installation; were patient and took their time to ensure proper fit and operation. They seemed almost as excited as I was about my roll-outs.
Thank you!”

Val Kerns

4. We enjoyed having you, David, and Steve here! It made the installation a pleasureable experience for us. The pull-out shelves and storage installation is exactly as expected and very easy to use! It has caused us to review all of the "stuff" we've kept and realize that we no longer need!

Thanks very much for doing such nice work, and being so courteous in doing it all!

Jim Wubbena

5.Hi David!

Of course my experience was great and I love my new drawers!! The best part though was working with folks who not only really know what they are doing, they have a passion for it...so I could see early on that great care would be taken and everything would be exactly right. How often do you see that anymore!!! Thanks again! Lynn Peugh.
